

ALBORZ CERAMIC Since 1973

ABOUT US

Alborz Ceramic is one of the most authoritative luxury design brands which leading the production of glazed mosaics & tiles for the decoration of interiors and exteriors.

This Company was established in 1973 in Alborz Ind. City nearby Qazvin, a city 130 km far from capital city of Tehran.

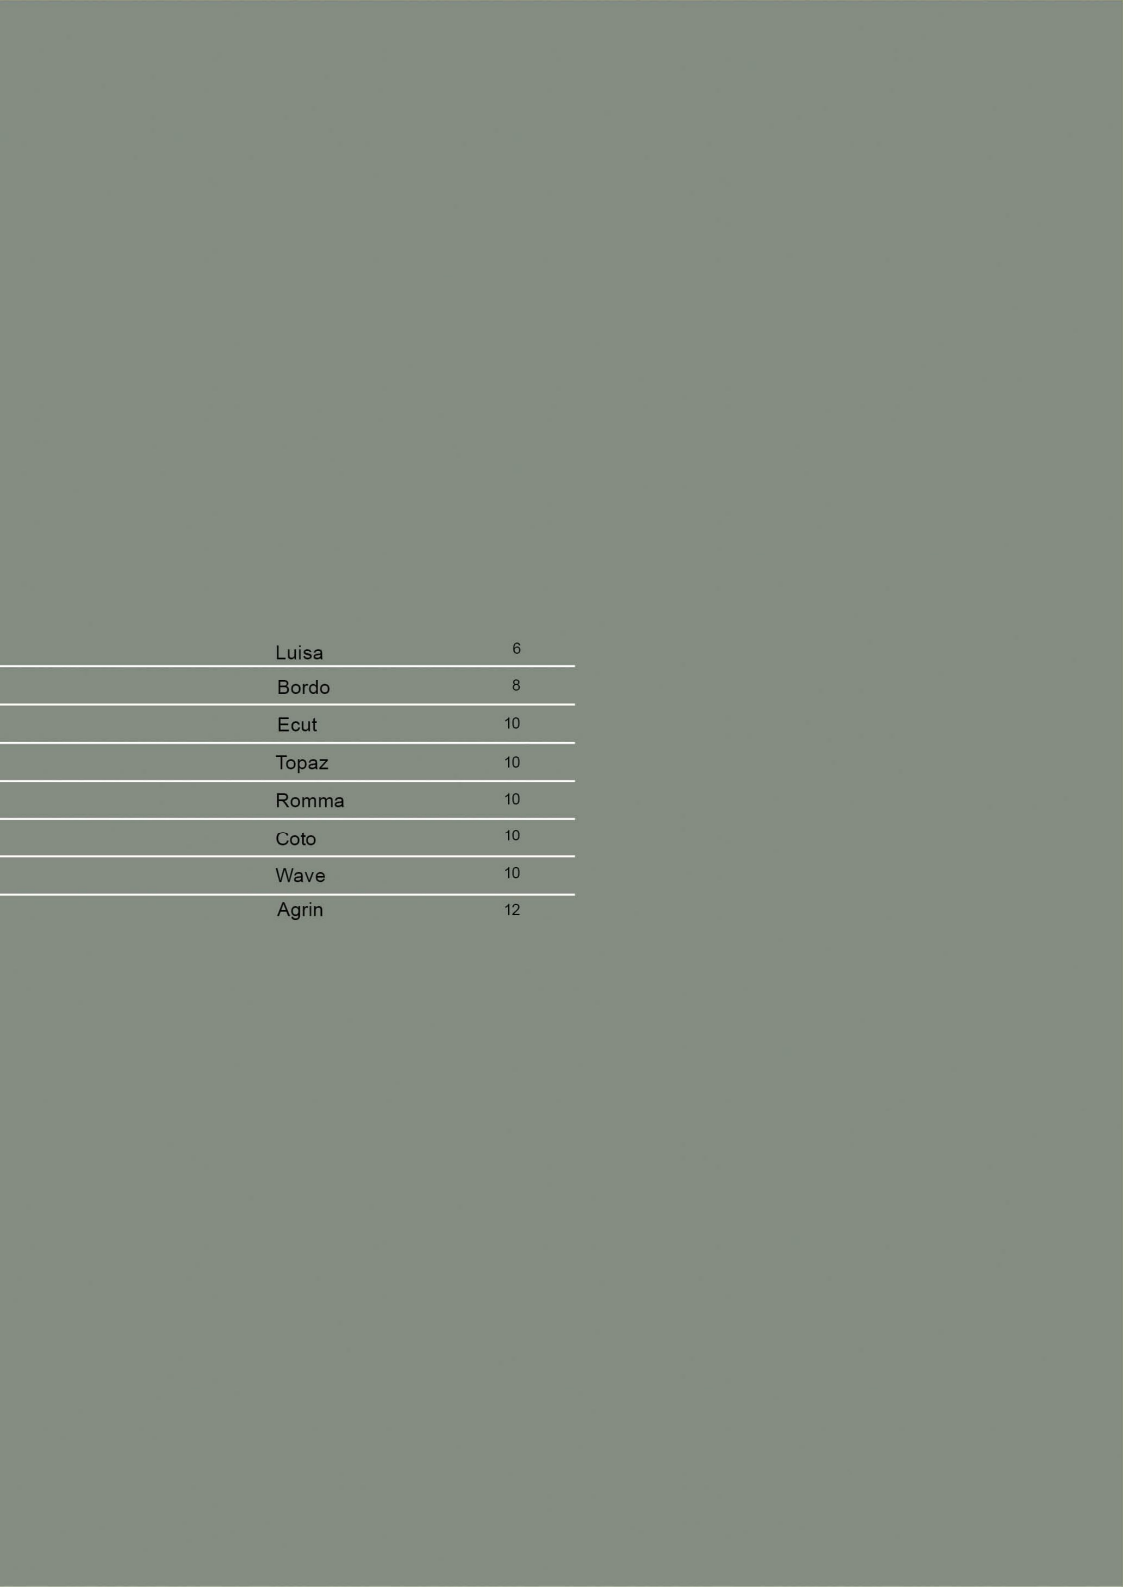

Alborz Ceramic produces glazed with matt, glossy and anti acid ceramics in sizes 10x10, 12x24, 15x15, 20x20, 30x30, 43x43, 45x45, 15x45, 20x60, 30x60, 30x90 cm. It also producing a wide range of glazed mosaics with matt, glossy, anti acid and anti slip in squared shapes of 1.7x1.7, 2.5x2.5, 5x5, 7.5x7.5 cm rectangular shapes of 2.5x5, 5 x10, 5x20, 6x24 cm and a hexagonal shape with the diameter of 3.3 cm in more than 75 based colors.

Applying the European technology and using modern machineries, Alborz Ceramic products are according to European standards.

Porcelain body, resistance to regular abrasion, freezing, acids and thermal shocks are some of the most important advantages of Alborz products. Alborz products are suitable for residential and commercial indoors and outdoors such as bathrooms, kitchens, sport spaces, hotels, swimming pools, saunas, jacuzzis, tub surrounds, facades, urban areas and etc. At the present time, a big quantity of these products are exported to Europe, Africa, CIS countries, Arabian countries, New Zealand, Australia and South American countries. The aim of Alborz Ceramic is to offer a wide range of luxury decorative and laying solutions, ideal for any living area and expressing a unique style that interprets classicism in a modern key, blending elements of fashion and design.

- Available Highly resistant flooring available in different colors. Highly resistant to knocks, marks and abrasion.
- Easy to clean.
- Anti slip surfaces that comply with international norms.
- Surfaces resistant to chemical agents.

Jasper Cream

Jasper Brown

Another Alborz Ceramic product is Jasper Ceramic 30X30 cm, which comes in brown and cream colors.

Jasper is a proper product for covering walls and floors and is used in spaces such as kitchens, bathrooms, and toilets.

The Jasper design is inspired by mountain rocks and conveys a sense of nature in the environment. The combination of Jasper, a valuable natural stone, with simple ceramic generates beautiful designs.

Verni

Zino

The patterns of Zino Ceramic model, in addition to the color combination used in it, at first glance are reminiscent of classic designs that remained from the glorious periods of the ancient. In the design of this product, traces of originality and combination with modern taste can be clearly seen. Zino model, is produced in 30X30 cm, is a suitable option for use in both modern and avant garde designs, as well as for spaces with classic decoration and design.

MULTI
FACES

Almond Cream

Tiffani

When geometric shapes such as squares and rhombuses are colored with artistic taste put together, the result is always beautiful. The same combination has been used to design the Tiffani Ceramic model, which is a colorful and vivid product which its features make the space spectacular and markable wherever it be used.

Some ceramic models are designed like modern artworks, with simple colors and minimal patterns and lines that give the overall look of the product with an image inevitably will attract attention.

Calacatta Ceramic model with a size of 30X30 cm, which is one of the newest Alborz Ceramic products, is similar to a painting by a modernist artist in terms of design and color which by freely touching the brush and juxtaposition of these curvature lines has created a thought-provoking picture.

Calacatta Ceramic model by its color and size, could be a spectacular and extremely stylish option for use on the floor. The white faces of this model with its black folds and cracks fascinate every viewer.

Varna Tan

Varna Gray

How much do we care about visual beauty? How conscious are we that our eyes have the right to see beauty for our souls to maintain their health? In interior designs such as home or office, ceramic has a special role in identifying the layout and decoration. If we accept that we have to provide the right nourishment for our eyes, we will be more careful in choosing ceramic tiles.

GARNET | 30x30 cm-11.8x11.8 inch

Harmony Gray

Garnet

Garnet model entails a harmonic spectrum that displays colors of nature and can be a suitable artistic choice for the floor and walls of various indoor and outdoor spaces, such as living room floor, kitchen floor, bathroom floor, walls of the hall, the floor of the coffee shop and restaurant, etc. This model is produced in 30X30 cm, has a beautiful design, selected particular parts of the color wheel, is durable, and enhances the attractiveness of the layout and interior decoration significantly.

MULTI
FACES

Leon

Leon Decor

Leon is one of the Alborz products, suitable for floor and wall coverings. When combined with simple ceramics, Leon can be used to create various decorative styles. Leon Ceramic 30X30 cm is a beautiful product, resistant to any damage. Leon a product of Alborz Ceramic is derived from a prominent Italian name. Indeed, in other nations, Leon also has meaning and application. Throughout history, famous people have been called Leon. Moreover, a famous film with the same name has been released.

Amitis

A glorious and mysterious design that is mesmerizing for its complexity and attractiveness. Amitis with patterns that originate from hard and solid mountain rocks, with its eye catching designs and bright color spectrum can give the spirit of attractiveness and beauty in the design of the spaces in which it is installed.

Flore

According to Ahmad Shamloo a distinguished poet; The mountain begins with the first stones and the design that comes from the heart of the hard rock of the mountains is reminiscent of resistance, stability, and durability. Flore model from Alborz Ceramic is a design derived from the cut of stones, which brings glory and beauty of mountains by installing them.

MARBELLA

45x45 cm-17.7x17.7 inch

Marbella

An appropriate and colorful choice for use in the floors of all types of the building, including halls, kitchens, rooms and etc. Marbella Ceramic is a 45X45 cm product, produced by Alborz Ceramic with a similar design like natural stone in cream and light lines and curves on it. The soil used in the production of this model is ordinary soil and the surface is covered by smooth and matte glaze.

Direction of Coding System

The first column of the coding is shown by (A) which is related to size of the products. "A" is shown as mosaic 1.7x1.7, "B" as mosaic 2.5x5, "C" as mosaic 2.5x2.5, "D" as mosaic 5.0x5.0, "F" as mosaic 7.5x7.5, "S" as mosaic hexagonal with the diameter 3.3 cm, "T" as mosaic 10x10, "K" as mosaic 15x15, "R" as mosaic 20x20, "I" as mosaic 25x25, "L" as mosaic 15x45, "O" as mosaic 30x30, "N" as mosaic 20x50, "V" as mosaic 30x60, and "M" as mosaic 45x45 cm ceramic tile. The second column is shown by letter (B) is related to the type of glaze used to cover the surface of mosaic and ceramic tile. "M" is the abbreviation of Matt, "G" of Glossy, "S" of

T	G	A	0	1	0	1	R	E	D	2	5	1	L	P	8	0	1	2	0	5	1
A	B	C	D	D	E	E	F	F	F	G	H	I	J	K	L	L	L	L	L	L	M

Snowy, "F" of Flooring, and "A" of Anti slip glazed types. The third column shown by (C) indicates whether or not any changes are made on the surface of each type of tiles. In case there is an extra cut (curve) on the surface of tiles, it has been tried to show the type of the cut by a capital English letter which is similar to it. For example, letter "N" indicates an extra cut from one corner to the other, so it can be divided into two triangle pieces. Letter "X" indicates a double extra cut from each corner to the other ones, so a tile can be divided into four triangle pieces. Letter "H" indicates a straight left to right cut on the center of tile, so it can be divided into two pieces.

If there is no trace of any kind of cuts or curves on the surface, it is shown as "A".

The fourth and fifth columns are shown by (D) which are related to the type of design or effect made on the mould to make it different. It can be simple or rustic type and is shown by a double digit from 01 to 99.

Number 01 represents mould with no changes. Matt or glossy glazes with plain surface are classified into two groups. The first group with matt glaze is

introduced as Accord and the second group with glossy glaze as Harmony.

The range of colors applied on Accord and Har

mony exceed 45 based colors. Number 02 represents moulds with rough curves on the surface and is known as Rocky. Like Accord and Harmony,

the range of applied colors exceed 45 from white to black in matt and glossy glazes. Number 03 represents the first soft rustic type which Alborz produced. There you may find some small holes on the surface and the edges are still unchanged. It is known as mountain and distributed to the market by color BRN 3. Number 04 represents the mountain design with some changes on the edges. This type presented to the market in two formats. The one with matt or glossy glaze without any printing on the top is introduced as Rainbow and the one with matt glaze and a print on the top as Arian. There are 7 colors of Rainbow and 4 colors of Arian available in the market.

Number 05 is named Rush due to its resemblance to a kind of wood with the same name. It can be presented both with matt or glossy glaze in 45 colors. Number 06 is introduced as Epigraph. It is a kind of rustic type and available in two colors. Number 07 is named Mani.

Number 08 presented to the market as Wave. There are six printed colors of this type available.

Number 09 is named Atlasi. This type is the newly irregular type with non-straight angles.

As you see, It is possible to represent almost 100 different types of mould with this category. The coming new designs can be introduced from 10 to 99.

The sixth and seventh columns are related to the printing type applied on the surface of tiles.

If a no. shows 00, it means there is no printing applied on the top of the tile. In case, it is shown as 01 to 99, it means there is a trace of a kind of printing format on the top of tile. By now, 01 is applied on Mountain, Arian, and Epigraph.

The eighth, ninth and tenth columns of this system shown by letter (F) are taken to introduce the colors.

It consists of three letters of abbreviated name of colors. These colors based on their place on Alborz spectrum colors are shown by WHT as group of white colors, TAN as group of Bronze colors, PNK as group of Pink colors, BRN as group of Brown colors, RED, ORG as the group of Orange&Red colors, YLW as the group of Yellow colors, GRN as the

group of Green colors, BLU as the group of Blue colors, LVN as Lavender color, GRY as the group of Grey colors, and BLK as Black. The eleventh column shown by (G), specifies the place of color in a group by digits from 1 to 9. As an example, WHT 2 introduces the second color in white group.

The twelfth column shown by letter (H) indicates the tone differentiation of each color, it is very important to use colors with the same tonality in one area. Otherwise, the outcome will not be satisfactory.

The thirteenth column shown by letter (I) specifies the products grade as 1,2,3 and 4.

The fourteenth column shown by letter (J) gives information about the size of tiles after firing which is about 2mm.

Shown by (K), the fifteenth column concerns itself with packing system, "P" means groups of mosaics used by paper mesh, "F" means packing mosaics using nylon mesh, "S" means packing of 10X10 ceramic tiles in group of 3X4 by silicon P.V.C dot mounting. If it is replaced by "T", it means packing 10x10 ceramic tiles in a group of 3X3 pieces of tiles in each sheet. "U" indicates packing by using plain paper on the top specially 3X4 pieces of 10X10 ceramic tiles. If the no. of tiles decreases up to 3X3 pieces, it will be shown as "V".

Shown by letter (L), the sixteenth up to twenty - first columns give the production date.

The last column shown as (M) represents production operator in that date.
